PROFESSIONAL SUMMARY

PROFILE

Intuitive, passionate Front-End Developer and AI Automations Engineer from Hyderabad with proven expertise in reverse-engineering commercial platforms (Amazon, YouTube, Blinkit, Hyperpure by Zomato) to master layout math, responsive state flows, and tactile UX. Creator of open-source developer tooling (**SimpleIDE**) and zero-server client-side media storage using IndexedDB. Proven track record deploying production web applications across GitHub, Vercel, and Netlify with 32 public repositories.

TECHNICAL SKILLS MATRIX

CAPABILITIES

Core Web & Languages	HTML5 (Semantic & Accessible), CSS3 (Modern Flexbox, CSS Grid), JavaScript (ES6+, Async, DOM APIs), TypeScript, Python
Frameworks & UI	React, Vite, Bootstrap 5, Tailwind CSS, GSAP (Motion & ScrollTrigger), Spline 3D Integration, Web Audio API
AI & Automations	Autonomous Coding Agents, WhatsApp Cloud API Automations, Email Marketing Automation (EMA), Electron AI Desktop Tools, LLM APIs (OpenAI / Claude / Gemini), Webhook Routing
Architecture & Tools	Git & GitHub, IndexedDB Persistent Client Storage, Node.js, Express, RESTful APIs, Figma UI/UX Prototyping

FLAGSHIP PROJECTS & SYSTEMS

GITHUB REPOSITORIES

Hyperpure UI/UX Clone

Live Demo • github.com/lucky4-git1/Hyperpure

HTML5 • CSS3 • JavaScript • Bootstrap 5 • Responsive Architecture

- Complete UI recreation of Hyperpure by Zomato with responsive layouts, product sections, dynamic cart UI, and checkout page design.
- Engineered dynamic cart state recalculations (subtotals, taxes, item thresholds) and realistic e-commerce interface behavior.

MuTube personal media player

Live Demo • github.com/lucky4-git1/MuTube-media-player-v1.0

HTML5 • CSS3 • JavaScript • Bootstrap • IndexedDB API

- Offline MP3/MP4 media player web app built to store files in IndexedDB and provide truly offline playback with custom theme system.
- Interactive controls for audio/video playback, playlist creation, track shuffle, and persistent user preferences without servers.

Atherone 3D scrollytelling web-app made with spline

Netlify Live • github.com/lucky4-git1/atherone

HTML • React • GSAP • Spline 3D • TypeScript • Tailwind CSS

- 3D scrollytelling web application showcasing a fictional space exploration venture with interactive 3D models and smooth scrolling animations.
- Integrated Spline 3D viewport canvas models with GSAP ScrollTrigger timeline bindings for continuous cinematic camera shifts.

SimpleIDE (Open-Source AI Desktop IDE)

github.com/lucky4-git1/SimpleIDE

Electron • React • Vite • JavaScript • Autonomous AI Agent

- Open-source AI-powered desktop IDE featuring an integrated AI coding agent, lightweight modern UI, and rapid prototyping workflows.
- Built for local developer productivity with modular multi-file editing and automated reasoning capabilities.

Production UI Clones (District, YouTube, Blinkit, TSPSC, Amazon)

github.com/lucky4-git1

HTML5 • CSS3 • JavaScript • Bootstrap 5 • Responsive Design

- **District UI/UX Clone:** Fully responsive lifestyle platform clone with interactive cards, navigation, and micro-animations.
- **YouTube UI/UX Clone:** Sticky glass navbar, collapsible dual-state sidebar, responsive video grid, and search suggestions.
- **Blinkit & Amazon Clones:** Quick-commerce category carousels, item adders, and mega-menu e-commerce navigation.

AI Automations & Deployed Web Apps (WhatsApp AI, EMA, RewriteBot, Gitdrop)

Vercel & Netlify Deployed

TypeScript • Node.js • Webhooks • LLM APIs • Next.js • Vercel

- **WhatsApp AI & EMA:** Autonomous message pipelines, intent classification, customer replies, and email marketing workflows.
- **RewriteBot & Gitdrop:** Live production apps deployed on Vercel (rewritebot-client.vercel.app, gitdrop-three.vercel.app).

EDUCATION & ACADEMIC CREDENTIALS

EDUCATION

Master of Computer Applications (MCA)
First Year Student • Hyderabad, India
2025 – 2027 (Expected)
Advanced Web Architectures, Distributed Systems & AI Systems

Bachelor of Computer Applications (BCA)
Graduated with Distinction • Hyderabad, India
2022 – 2025
Core Software Engineering, Data Structures & Front-End Specialization
